DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by DeVolpi (US Pat. 5,912,612).

DeVolpi teaches a switch comprising:

a first electrical contact and a second electrical contact (please refer to figs. 1 and 2);

one contact movable relative to the other contact; and
variable resistive material 22 arranged for the contacts to move from the open condition to the closed condition.

Regarding claim 3, DeVolpi discloses a third contact (also 22) in fig. 1.

Regarding claim 4, contact 18 bridges the contact 22.

Regarding claims 5-7 and 9, please see figs. 1-3.

Regarding claim 8, actuation would compress the resistive material.

Allowable Subject Matter

3. Claims 10-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 10 in its entirety is neither disclosed nor suggested by the prior art of record.
